____ Battery product technical data sheet

Declaration:

I understand and agree to all Terms and conditions of this agreement outlined on this document:

- The applicant is the owner of the property where the system will be installed. Non ownership will result in project denial.
- Solar project must have a signed and approved Net Metering Application to qualify for a rebate
- Rebate value is \$300 for battery backup/storage units of 5KW and larger and for residential customers only. Minimum size 5KW required to receive a rebate and installed after June 9, 2021.
- Only 1 rebate per customer.
- Rebates may subject to Federal or State tax reporting. Applicant is responsible for contacting a qualified tax advisor to determine liability.
- TMLP reserves the right to inspect and verify all battery backup/storage systems before a rebate is issued.
- Must be customer of record for at least 6 months with no arrears
- System must be installed in a single family dwelling residence of TMLP service territory
- Professional, licensed contractor must install system
- Once all paperwork is submitted and approved TMLP will send commitment letter with rebate amount to customer of record.

Note: Copies of all paid invoices must be submitted to TMLP before a rebate will be generated for project
